Ritwik Dasgupta

Senior UX Designer | Product Designer, Amazon

Ten years designing consumer and enterprise products at Amazon and Microsoft. I design how millions of shoppers in emerging markets find the best price and pay for it.

Experience

Sep 2022 – Present

Senior UX Designer · Amazon

Lead UX design for value and purchase (offers, pricing, payments and checkout) on the Amazon Shopping app across ten emerging markets.

- **Offers and pricing:** sole designer, end to end. Turned more than ten types of offers into one personalised "Buy for" price. The 2024 version shipped in all ten markets and increased conversion; the 2026 version is live in four.
- **User research:** ran two rounds of usability studies across five markets with 140 participants.
- **Stakeholder alignment:** aligned worldwide, country and payments teams on one experience before every launch.
- **One-tap checkout:** designed checkout customers complete without leaving the page they are on.
- **Design leadership:** mentor designers and run sessions on using AI in UX workflows.

May 2020 – Sep 2022

UX Designer · Amazon

- Designed the exchange your old product, basket building and services experiences on the Amazon Shopping app, from user research and usability testing through to launch.

Aug 2016 – May 2020

UX Designer · Microsoft

- **Cortana Notebook:** shipped the experience for managing and discovering the AI assistant's skills.
- **Package tracking in Cortana:** shipped delivery tracking in the assistant.
- Designed conversational AI and intelligent search across Microsoft 365.
